

is a member of **TechServe Alliance**, the only national trade association exclusively for the IT & engineering staffing and solutions industry.

What Our Membership Means to You

- The core competency of TechServe member companies is the ability to effectively qualify and deploy exceptional technical talent that meets the specific needs of clients.
- Our access to robust resources enables us to keep current on the latest industry research, market intelligence, employment trends and best practices.
- From a commitment to equal opportunity and honesty in communications to protecting the intellectual property of clients, TechServe members subscribe to the industry's most rigorous code of conduct.
- With access to a wide range of legal, regulatory and compliance resources, TechServe Alliance members are well equipped to mitigate legal risk in client engagements.

TechServe Alliance member companies are strongly committed to:

- understanding both your technical and business goals
- long-term client relationships built upon exceeding your expectations
- fair business practices and adhering to the highest ethical standards
- staying up-to-date on market and legal trends that impact your ability to access qualified talent
- leveraging AI and emerging technology to drive smarter, faster talent solutions for clients

“

Representing the best firms in the industry, TechServe Alliance members are distinguished by the consistent value they provide to clients every day. Everything we do as an alliance positions our member companies as the 'gold standard' for industry expertise, innovation, efficiency and professionalism.

Mark Roberts

CEO, TechServe Alliance

TechServe member companies consistently deliver IT & engineering talent and solutions of the highest quality, along with a commitment to uncompromising integrity.
